

CAREER OBJECTIVE

To obtain a challenging position as a web developer where I can apply my skills in HTML, CSS, JavaScript, and frontend development to create impactful digital experiences. I aim to grow as a developer while contributing to innovative projects and delivering value to a forward-thinking organization.

EDUCATION

Bachelor of Computer Applications (BCA), BCA 2024 - 2027
GLA University, Mathura

PORTFOLIO

PROJECTS

[Weather App ↗](#)

May 2025
WeatherNow is a responsive weather web app built using HTML, CSS, and JavaScript. It fetches real-time weather, forecasts, and air quality using APIs. Features a clean, card-based UI for a modern user experience

[Spotify clone ↗](#)

Jan 2025
Spotify Clone is a music streaming web app built with HTML, CSS, and JavaScript. It mimics Spotify's UI with features like a responsive layout, play/pause controls, and song list. This project highlights my front-end development skills and focus on interactive design.

[My portfolio website ↗](#)

Mar 2025
My Portfolio Website showcases my projects, skills, and background as a web developer. Built using HTML, CSS, and JavaScript, it features a clean, responsive, and modern design. It reflects my passion for front-end development and attention to detail in UI/UX.

[Amazon clone ↗](#)

Nov 2024
Amazon Clone is a responsive e-commerce website built using HTML, CSS. It replicates core features of Amazon like homepage layout, product listings, and user interface. The project showcases my front-end development skills and understanding of modern web design.
